FOR IMMEDIATE RELEASE

Core-apps, LLC. Launches mobile application for tradeshows called “Follow Me”

Glen Burnie, Maryland, June 12, 2009 - **Core-apps, LLC.**, today announced that they have been granted approval to launch the mobile application “**Follow Me**” from Apple, Inc. “Follow Me” is designed as an interactive mobile application for all trade shows. The first “Follow Me” application is designed for the **TS2 trade show** in July 2009, and it appears in the Apple, Inc. app store for purchase @ \$1.99. <http://bit.ly/TS2-2009>

“Core-apps is excited to have been granted the approval from Apple, Inc. to launch **Follow Me**”, stated President and Co-Founder, Jesse Snipper. “While this app is an unofficial app for the TS2 show, we have many more in the works that will be the official trade show smartphone application. We will also be launching interactive versions of **Follow Me** for other smartphone manufacturers as well.”

Follow Me is a unique interactive smartphone application that gives you the ability to stay organized with your trade show schedule, get updates/alerts, navigate through the trade show with the interactive floor map, and communicate with exhibitors. The application also has special discount and free offerings from the local merchants around the show. Exhibitor information is easily found and kept updated.
